EnergyFest 2026

Where expertise meets opportunity

Bijloke site | Ghent

SPONSORSHIP PACKAGES

What is EnergyFest?

EnergyFest is Ghent University's 2-yearly flagship event celebrating innovation in energy technology and research. After a successful first edition in 2024, EnergyFest 2026 will once again bring together all relevant stakeholders around today's most pressing energy challenges — from sustainable energy generation and strategic independence to digitalisation and system integration.

We will connect the expertise from academia with tangible needs and opportunities from industry and policy-making to innovate our energy future.

EnergyFest 2024 edition

180+
Participants

17+
Research booths
at energy fair

Leading voices
on a range of
energy topics

Matchmaking &
brainstorming

EnergyFest 2024

I'm often invited to speak at energy conferences, but the focus is always on the challenges we face, how we aren't doing enough and how we're not meeting targets. This event is about celebrating what we ARE doing! – *Jan Mertens / Engie (2024 edition)*

About the organizers

EnergyFest is organized by **EnerGhentIC**, the interdisciplinary community of Ghent University innovating our energy future in partnership with industry and policy makers.

What we do

Socio-economic valorisation

Transforming academic breakthroughs into real-life solutions tackling the energy transition challenge

Collaborative research & innovation services

Partnering up to co-develop technologies and provide expert research services accelerating the energy transition

Education & training

Supporting life-long training of energy professionals

www.energhentic.be

200+ energy researchers

17 research groups & 5 faculties

Embedded in technology ecosystem: Tech Lane Ghent, Ostend Science Park, Campus Kortrijk

7 MIO+ euro yearly private and public funding acquired for energy research & innovation

Why partner with EnergyFest 2026?

EnergyFest 2026 offers a unique chance to connect with Belgium's top energy experts, innovators and decision makers.

As a sponsor, you gain visibility, leadership and access, all while engaging directly with the community who are shaping and innovating our energy future together with you.

Visibility

Put your brand in front of Belgium's vibrant energy innovation community.

From event banners to digital channels, **your brand will be seen** by researchers, companies, and policymakers driving the energy transition.

Leadership

Be recognized as a trusted innovation leader driving the energy transition.

Sponsoring EnergyFest positions you as a **frontrunner** in sustainable energy innovation, valuing collaboration with research partners.

Networking

As a sponsor, you're not just attending — you're at the **center of the conversation**.

Your booth or branded presence makes it easy for participants to find and engage with you, while VIP seating and exclusive access moments give you direct contact with speakers, researchers, and industry leaders.
